

## William Ryann

Counsel

[wryann@verrill-law.com](mailto:wryann@verrill-law.com)

William guides clients through the development, management, and implementation of complex intellectual property strategies on a company-wide basis, helping clients successfully develop an effective patent portfolio.

William began his career as a Genetic Researcher at the UT Southwestern Medical School in Dallas and holds a degree in biomedical science. He utilizes his strong physics background to serve a broad range of client needs. He also has a wealth of experience personally preparing patent applications for clients in the fields of semiconductor processing, materials, medical devices, oilfield, and other technology reliant industries.

Whether a Fortune 100 medical device company or a smaller materials company, William takes the time to understand his clients objectives and drive the implementation of a company-wide IP strategy, along with the requisite brainstorming, idea generation, and management tools to support client objectives.

William enjoys reading and suggests you give *A Tree Grows in Brooklyn* a try.
